Audio Case Study #48

Jack Daniel's Micro Sound Button

When a brand as storied as Jack Daniel's decides to develop a tagline for the first time in its history, the branded merchandise it distributes to support that new direction needs to be cool and innovative. Consider both boxes checked with the CleggPromo Micro Sound Button that plays the new tagline ("Make it Count") every time it's tapped. The audio devices were sent to influencers and bars to be handed out to excited patrons. Old Jack himself would be proud of this "sound promotion."
