**Audio Case Study #76**

**Capital One 5" x 7" Custom Sound Card**

When your team hits its goals, make sure they "hear" about it. When a senior executive at Capital One asked his distributor how he could best thank his team for a great year, the distributor turned to CleggPromo for our proprietary Audio Cards. The graphics make clear that a celebration is in order, and then when the team members open their cards they hear a custom 10 second message from their Vice President thanking them for their hard work and accomplishments. When your end user needs to get its message out, make sure their voice gets heard with a proprietary Audio Card from CleggPromo.
